25X1

1. Sovromconstructie No. 6, located at 14 Strada Dorobanti in Bucharest, the former house of Minister Dinu Bratianu, has a technical and administrative staff of 100. In each district city, about 58, there is an agency headed by a chief engineer supervising all constructions in the area.
2. In addition to minor roads, Sovromconstructie No. 6 received an order to build a road between Cernavoda and Constanta parallel to the Danube-Black Sea Canal, at a distance of one-half to one kilometer from the canal. The road, which is five or six meters wide, was begun at the same time as the canal itself, and was also built at great speed. It is built of gravel, covered with a layer of special sand, and topped with asphalt.
3. Expenditures on the road in 1950, including materials, wages, and equipment, amounted to 1,400 million lei. Other figures were kept secret by the bookkeeper, Mme. Gussieva (fnu), and the general manager, Galincoff (fnu), both Soviets.
